

The consortium of the EU-funded project [APEX](#) – Archives Portal Europe Network of Excellence – consisting of 28 national archives and ICARUS, is organising a conference to discuss the major challenges archives face on their path into the digital world. It aims at debating the major questions in respective professional fields by evaluating the broad scope of methods and approaches and by gathering experiences and perspectives from related projects conducive to obtaining new insights and visions regarding the further development of the Archives Portal Europe. Additionally, a series of workshops will provide practical knowledge in order to fulfill the preconditions of becoming participants of online platforms and portals.
