

From the **2nd - 6th of July 2012** Digital.Humanities@Oxford Summer School (DHOXSS) delegates visiting the University of Oxford, UK, will be introduced to a range of topics suitable for researchers, project managers, research assistants, and students who are interested in the creation, management, or publication of digital data in the humanities.

Delegates will follow one of a 5 day workshops on:

- * An Introduction to XML and the Text Encoding Initiative
- * Working with TEI Texts (Advanced)
- * An Introduction to Digital Humanities Tools and Approaches
- * A Humanities Web of Data: Publishing, Linking, Querying and Visualisation on the Semantic Web

Each day will also contain plenary guest lectures by experts in their fields, plus a number of sessions on a wide variety of Digital Humanities topics. There will be morning surgery sessions to discuss projects and possibilities with tutors. The summer school is a collaboration for Digital.Humanities@Oxford between Oxford University Computing Services (OUCS), Oxford e-Research Centre (OERC), with the assistance of the Humanities Division, the Bodleian Library, the Oxford Internet Institute, and e-Research South.

The Summer School will be located at **Merton College, OUCS, and the OeRC**, all of which situated in the centre of the city of Oxford, UK.

Booking for this event will open in April 2012 and more information can be found at:

<http://digital.humanities.ox.ac.uk/dhoxss/>

including a general outline of the schedule, workshop descriptions, and registration fees. Further information will be published there as it becomes available.
