

The ENUMERATE Survey Report on Digitisation in Cultural Heritage Institutions 2012 represents the first major study into the current state of digitisation in Europe. It is the result of a survey carried out by the ENUMERATE Thematic Network, with the help of national coordinators, in 29 European countries. About 2000 institutions answered the open call to participate between January and March 2012.

The survey asked questions about

- The state of digitisation activity in the institution responding;
- Access to digital collections;
- Its digital preservation strategy;
- Expenditure of digitisation by the institution.
