## Who are you, Digital Humanists?

This is a question asked by the organisers of the Digital Humanities survey. Please notice their announcement:

*By responding to this survey, you will help the Digital Humanities community discover its extent and diversity, as well as its geographical and linguistic composition. We hope you will be willing to participate in this survey and thus improve understanding of our community. This questionnaire, which is an initiative of the Centre for Open Publishing (Cleo) and OpenEdition.org, is a contribution to the Humanistica Project: towards a European association for the Digital Humanities, building on the ideas expressed in the Digital Humanities Manifesto, based on a multilingual approach, and democratic principles (one person, one vote). If you agree with the principles of the Digital Humanities, you can sign it ( http://www.humanistica.eu/ manifesto* *).*

*Thank you for your contribution!*
